Premier Nationwide Corporation

Premier Savings is a nationwide leader in helping consumers to get out from underneath the credit card debts that they have accumulated at a high interest rate. Premier Nationwide Corp. was incorporated in April 1997 just as consumer credit card debt was on the rise. It was also during this time that the financial derailment of American families, as a result of credit card debt, was also on the rise.

Both our Low Interest Rate Credit Card Referral Program & our Signature Rapid Payoff Plan provide American Families with much needed relief from unsecured debts. We offer the only solution available to consumers that does not involve Consumer Credit Counseling, Debt Settlement or Negotiation, or taking out a home equity loan. Over the past 10 years, Premier Savings has helped thousands of American Consumers to become debt free. We provide our customers a true roadmap that will get them out of debt with three guarantees. First, the consumer will be able to pay off all debts within a fraction of the normal time; second, they will pay significantly less interest to their creditors; lastly, at the end of the program they will have money to regularly invest in a retirement savings plan.
